EXECUTIVE BIOGRAPHY

Oliver Bowes

Oliver Bowes is the director of technology for **CSC®** Global Financial Markets (GFM). He manages the overall global infrastructure and IT service for the GFM division, as well as ongoing management of GFM's partner support relationships in the United States, Europe, and Asia-Pacific regions. Oliver joined CSC in February 2019 and has already overseen the rollout of a new infrastructure in the Asia-Pacific.

Oliver previously worked for Silverbug, a global IT managed service provider, where he took up various technical roles, including heading up the professional services division and solutions architecture. During his 12-year tenure, Oliver delivered many large projects and architected technical solutions to fit a wide variety of requirements.

Oliver holds various technical certifications with industry leaders, including Microsoft, VMware, and HP, and maintains close association and attendance to various technical innovation forums and bodies.

Oliver attended City University in London, where he studied computer systems engineering.
